

MICROSCOPY IN RESEARCH

The Portuguese Society for Microscopy, in collaboration with the Cooperativa de Ensino Superior Egas Moniz invites you to participate in the Congress "Microscopy in Research 2013" that will be held December 9 and 10 at the Cooperativa de Ensino Superior Egas Moniz, in Monte da Caparica.

Extended abstracts will be published in a special number of SPMicros official journal 'Microscopy and Microanalysis' (M&M), a Cambridge International Journal with an impact factor of 3.002

This meeting aims at providing Portuguese microscopists with an opportunity to present and discuss their work with interested colleagues. A post congress course intitled "Innovation in Microscopy" will take place in December 11. Invited speakers will present subjects with broad interest for the microscopy community. Stay tuned for upcoming information. <http://congress.spmicros2013.org>

Venue

Egas Moniz - Cooperativa de Ensino Superior, CRL
Campus Universitário - Quinta da Granja - Monte de Caparica
